

### Product Features

- Adds Bluetooth Music streaming to most OEM and aftermarket radios with RCA auxiliary input.
- Hear turn-by-turn Navigation App Voice Prompts on your car audio system while in Bluetooth mode.
- Magnetic phone mount included.

### Vehicle Applications

- The BTS-RCA terminates to RCA plugs that connects to most aftermarket radios with AUX Input function or OEM radios with the use of an AUX Input interface.

### Notes

- In the BT mode, you can use your favorite Navigation app and hear the turn by turn voice prompts from the car audio system.

### Installation Instructions

1. Carefully remove the radio to gain access to the radio connectors.
2. Locate the RCA Auxiliary Audio Input of the radio and plug the male RCAs of the BTS-RCA.
3. Tap the RED wire to 12V ACC and the BLACK wire to ground.
4. Test the system for functionality before putting back the radio.

### Operation

#### Bluetooth function:

1. Turn on the radio and go to the AUX input function.
2. Go to the Bluetooth menu on your phone and connect to "Crux BT".
3. Play the music on your phone and audio should be heard on the sound system.

#### Magnetic Phone Mount Assembly and Use:

1. Pop-in magnetic head to base socket.
2. Tighten locking nut to desired tilt.
3. Slide into the AC vent grille.
4. Use the desired metal plate size and stick on the back of the phone or insert behind the phone case.
