INSTALLATION TIPS:

REAR SPEAKER AUDIO CUTS:

For vehicles with Rear Seat Entertainment, you may encounter the audio cutting out through the rear speakers. To correct this issue, you will need to jump wires from the 32-pin input harness of the RSE connector to the output wires going to the speakers. Follow the diagram below.

RAP Feature:

Test the vehicle's RAP (Retained Accessory Power) system, close all the doors and turn the key to the "OFF" position, access to the radio should stay on. Open the driver's door to cancel the RAP system, and turn off the ACC Power.
