

**PRODUCT FEATURES:**

- For use as a front or backup camera.
- Includes 5 mounting options.
- With parking guide lines (can be turned on/off).
- Horizontal flip image feature for front camera use.

**PARTS INCLUDED:**

BALL CAMERA

SQUARE MOUNT HOUSING

LIP MOUNT HOUSING

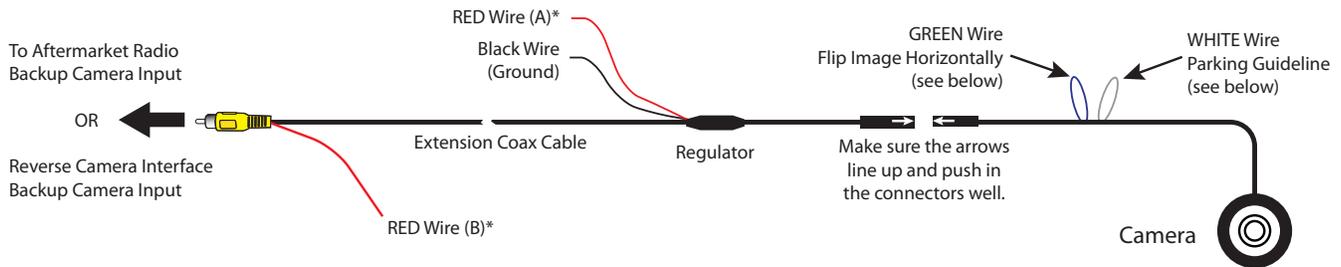

ADJUSTABLE ANGLE PUSH IN MOUNT HOUSING

RUBBER STICK-ON MOUNT HOUSING

LICENSE PLATE MOUNT

**\*NOTE:** The camera needs a +12V trigger. Power the camera at the headunit using RED Wire B or from the reverse light wire using RED Wire A. **DO NOT** connect both wires to +12V at the same time. Insulate the red wire that is not being used. Tap the Black wire to an existing ground lead, or ground Black wire securely to vehicle body metal.

Loop Wire Color	Function	Joined	Cut
White	Parking Lines	ON (default)	OFF
Green	Flip Image horizontally to use as a front camera	OFF (default)	ON
