- Can be use on either the left or right side.

**PARTS INCLUDED:**

CSV-01 Fender Mount Camera (1 Pair)

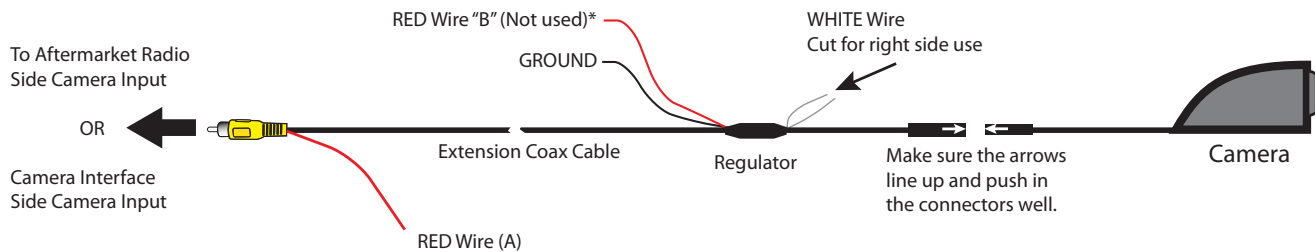

10 foot Extension Cable

Available in Black, Charcoal Gray, Silver & White

**INSTALLATION DIAGRAM:**

\*NOTE: Tap RED Wire A to the radio or camera interface +12V camera power output and the black wire to chassis ground.  
RED wire B is not used and should be insulated with tape.  
WHITE Wire: Connect for left side use. Cut for right side use.

**INSTALLATION INSTRUCTIONS:**

The CSV-01 sticks on the fender and the flat cable goes into the gap between the fender and the door. Thoroughly clean the area where the CSV-01 will be installed. Remove the wax to ensure a secure installation. Use the double sided tape on the flat cable to stick the cable around the rear of the fender.
