

**PRODUCT FEATURES:**

- With moving parking guide lines that move to the direction you are turning.
- Selectable parking guide lines ON or OFF.
- Includes a butterfly mount for mounting flexibility.

**PARTS INCLUDED:**

CLP-13M CAMERA

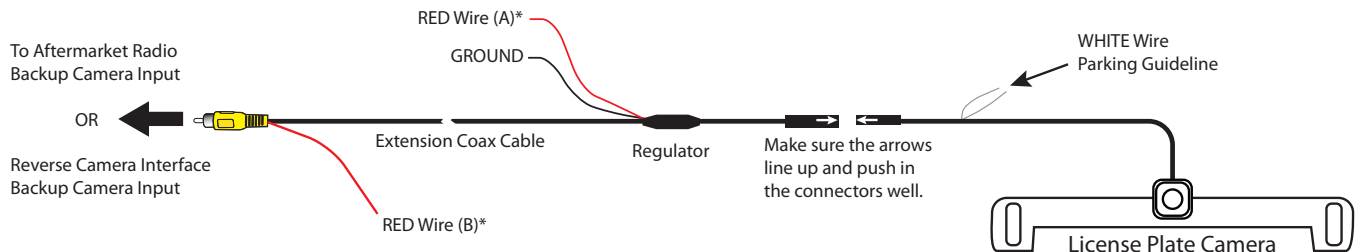

EXTENSION CABLE

Butterfly Mount

**INSTALLATION DIAGRAM:**

**\*NOTE:** To power the camera, use RED Wire A or B. If tapping power from the radio or RVC Interface, make sure to insulate RED Wire A to avoid it from shorting. If you will be tapping power from the reverse light +12V, insulate RED Wire B to avoid it from shorting. With either connection the Black GROUND wire needs to be connected to a solid chassis ground. For vehicles with manual transmission, we recommend tapping +12V power from the reverse light.

**WHITE Wire Loop:** Cut to remove parking guide lines. Connect to show parking guide lines. Insulate with tape to avoid from shorting.

**NOTE:** Cycle the camera power by unplugging the 4 pin barrel connectors after connecting or disconnecting the control wires.

**\*\*\*\*\*DO NOT power the camera from +12V constant (battery) or +12V ACC\*\*\*\*\***
