

## **PRODUCT FEATURES:**

- Replaces factory tailgate handle assembly.
- Selectable Parking Guide Line ON or OFF.
- Maintains the OEM look.

## **PARTS INCLUDED:**

- 1. Tailgate handle camera
- 2. 26 ft. extension cable

## **INSTALLATION INSTRUCTIONS:**

- 1. Remove the factory tailgate handle and remove the emblem and key cylinder.
- 2. Run the camera cable to the inside of the cabin towards the radio.
- 3. Make the power and video connections to the rear view camera integration interface or the aftermarket radio or the reverse light.
- 4. Install the emblem and key cylinder to the CNS-02F tailgate handle assembly.
- 5. Test the camera for functionality. Decide whether the parking guide line will be used or not. See below for instructions on how to turn it ON/OFF.
- 6. Install the new tailgate handle camera.

\*NOTE: To power the camera, use RED Wire A or B. If tapping power from the radio or RVC Interface, make sure to insulate RED Wire A to avoid it from shorting. If you will be tapping power from the reverse light +12V, insulate RED Wire B to avoid it from shorting. With either connection the Black GROUND wire needs to be connected to a solid chassis ground. For vehicles with manual transmission, we recommend tapping +12V power from the reverse light.

**GREEN Wire:** Connect to show parking guide line. Cut loop to remove guide lines. Insulate with tape to avoid from shorting.

WHITE Wire: Not used, do not cut.

**Note:** Cycle the camera power after connecting or disconnecting the GREEN control wire.

## **VEHICLE APPLICATIONS:**

**NISSAN** 

2013 - 2016 Frontier

NOTE: Nissan emblem and key cylinder not included.
