

PRODUCT FEATURES:

- With Parking Guide Lines that can be turned on and off.
- Mini camera for a wide variety of installation locations.
- Includes butterfly and push-in type mounting options.
- 100 degree horizontal viewing angle.

PARTS INCLUDED:

MM-CUB3 CAMERA

EXTENSION CABLE

INSTALLATION DIAGRAM:

***NOTE:** The camera needs a +12V trigger. Power the camera at the headunit using RED Wire B or from the reverse light wire using RED Wire A. **DO NOT** connect both wires to +12V at the same time. Insulate the red wire that is not being used. Tap the Black wire to an existing ground lead, or ground Black wire securely to vehicle body metal.

Loop Wire Color	Function	Joined	Cut
Yellow	Parking Lines	ON (default)	OFF
