

PRODUCT FEATURES:

- With Parking Guide Lines that can be turned on and off.
- Mini camera with a small footprint.
- Push-in type underlip mounting option.
- 100 degree horizontal viewing angle.

PARTS INCLUDED:

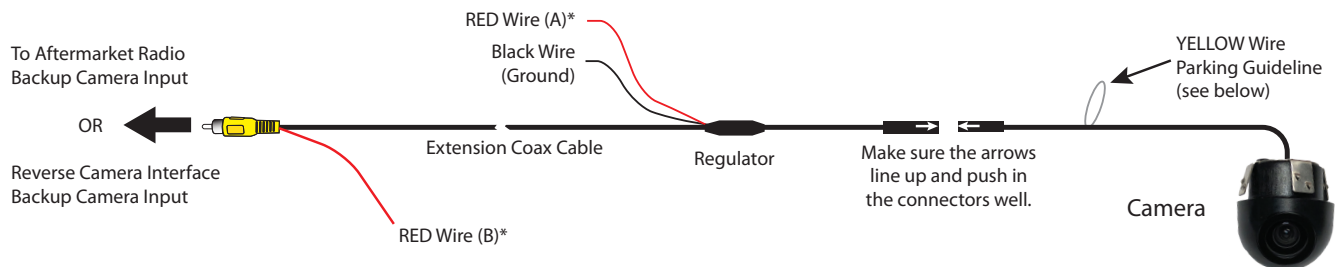

MM-CUL7 CAMERA

EXTENSION CABLE

INSTALLATION DIAGRAM:

NOTE:** The camera needs a +12V trigger. Power the camera at the headunit using RED Wire B or from the reverse light wire using RED Wire A. ***DO NOT connect both wires to +12V at the same time. Insulate the red wire that is not being used. Tap the Black wire to an existing ground lead, or ground Black wire securely to vehicle body metal.

Loop Wire Color	Function	Joined	Cut
Yellow	Parking Lines	ON (default)	OFF
