2015 – Up	C Class*		2014 – Up	S Class
2016 – Up	GLC			

Not compatible with CLA45

Features

- No need to remove the radio just plug into the OBD II port.

Note

- Compatible with Comand NTG5 systems.

Parts Included

VIMMB-85O MODULE

OBD II PLUG

Installation Instructions

1. Locate OBD-port and remove cover.
2. Turn on ignition.
3. Wait until the head-unit has completely booted.
4. Plug the VIMMB-85O into OBD-port which is usually located under the steering column.
5. Leave coder for about 30 seconds in OBD-port until the Green LED has a steady light.
6. Remove coder from the OBD-port.

To reverse the coding repeat steps 1-6.
After the first use on a vehicle, the VIMMB-85O is personalized to this vehicle and can be used unlimited times to code or reverse coding on this vehicle only.

LED Information:

LED	Status	Description
Green	Solid	Coding procedure successfully completed
	Flashing	Coding process in progress
Red	Solid	Remove coding procedure successfully completed
	Flashing	Coding process failed / license violation
Green + Red	Solid	CAN Communication Error! - Abort of the diagnostic session
