

**Vehicle Applications**

**MERCEDES BENZ**  
2017 E Class (W213)

**Features**

- Plug and Play activation via the OBD II port.
- No dealer programming required.
- Easy and time-saving 30 second coding procedure.

**Note**

- Compatible with Comand NTG5.5 systems.

**Parts Included**

VIMMB-85P MODULE

OBD II PLUG

**Installation Instructions**

1. Locate OBD-port and remove cover.
2. Turn on ignition.
3. Wait until the head-unit has completely booted.
4. Plug the VIMMB-85P into OBD-port which is usually located under the steering column.
5. Leave coder for about 30 seconds in OBD-port until the Green LED has a steady light.
6. Remove coder from the OBD-port.

To reverse the coding repeat steps 1-6.

After the first use on a vehicle, the VIMMB-85P is personalized to this vehicle and can be used unlimited times to code or reverse coding on this vehicle only.

**LED Information:**
