

PRODUCT FEATURES:

- Adds Bluetooth Music streaming to the OEM Toyota radio.
- USB music playback with track up, track down and folder controls from the radio panel or steering wheel controls.
- Adds 3.5mm auxiliary audio input.
- Hear turn-by-turn Navigation App Voice Prompts on your car audio system while in Bluetooth mode.
- USB port on the module can also be used to charge your phone.
- Magnetic phone mount included.

NOTES:

1. Radio must have a 12-pin (5 + 7) CD changer port.
2. The BTS-TY1 replaces the CD changer if present.
3. NOT compatible with 'AD' Series radios. (ex. AD6806)

INSTALLATION INSTRUCTIONS:

1. Carefully remove the radio to gain access to the radio connectors.
2. Locate the 12-pin (5 + 7) CD changer port. If there is a connector plugged into this cavity, you need to unplug it. The BTS-TY1 replaces the CD changer.
3. Plug the 12-pin connector of the BTS-TY1 to the CD changer port of the radio.
4. If the line-in feature will be used, plug a 3.5mm to 3.5mm cable (sold separately) to the BTS-TY1 module and run towards the desired location.
5. If a USB flash drive will be used, plug in a male to female USB cable (not included) to the BTS-TY1 module and run to the desired location.
6. You can also mount the BTS-TY1 to an easily accessible location such as the center console or glove box, to use the 3.5mm line-in and USB features.
7. Test the system for functionality before putting back the radio.

OPERATION:

For Bluetooth function:

1. Turn on the radio and press the CD button. Screen will show "CD1 01".
2. Go to the Bluetooth menu on your phone and connect to "Crux BT".
3. BTS-TY1 will announce when the phone has been connected.
4. Play the music on your phone and audio should be heard on the factory sound system.

For USB Mode:

1. Plug in your USB flash drive to the BTS-TY1 USB port.
2. Turn on the radio and press the CD button. Screen will show "CD1 01".
3. BTS-TY1 will announce "USB Mode".
4. USB Audio should be heard on the factory sound system. You can use either the radio control panel or steering wheel controls as follows:

TRACK UP & DOWN = change music track Up or Down

DISC UP & DOWN = change music folder

For Line-In Mode:

1. Plug in a 3.5mm to 3.5mm cable (sold separately) to the BTS-TY1 USB line-in jack.
2. Turn on the radio and press the CD button. Screen will show "CD1 01".
3. BTS-TY1 will announce "Line-In Mode".
4. Plug the other end of the cable to the audio player and press play. Audio should be heard on the factory sound system.

To Toggle Between Sources:

Use the "REPEAT (RPT)" button to toggle between AUX Input and Bluetooth OR between AUX Input and USB whichever pair is connected. You cannot toggle between Bluetooth and USB. Note that the USB takes precedence between the 3 inputs.

MAGNETIC PHONE MOUNT ASSEMBLY AND USE:

1. Pop-in magnetic head to base socket.
2. Tighten locking nut to desired tilt.
3. Slide into the AC vent grille.
4. Use the desired metal plate size and stick on the back of the phone or insert behind the phone case.

VEHICLE APPLICATIONS:

TOYOTA

1998-2002	4 Runner	1998-2001	Land Cruiser
