

PRODUCT FEATURES:

- Universal Push-In mount camera.
- Selectable Parking Guide Line ON or OFF.
- Can be used as a Rear View or Front View camera.

PARTS INCLUDED:

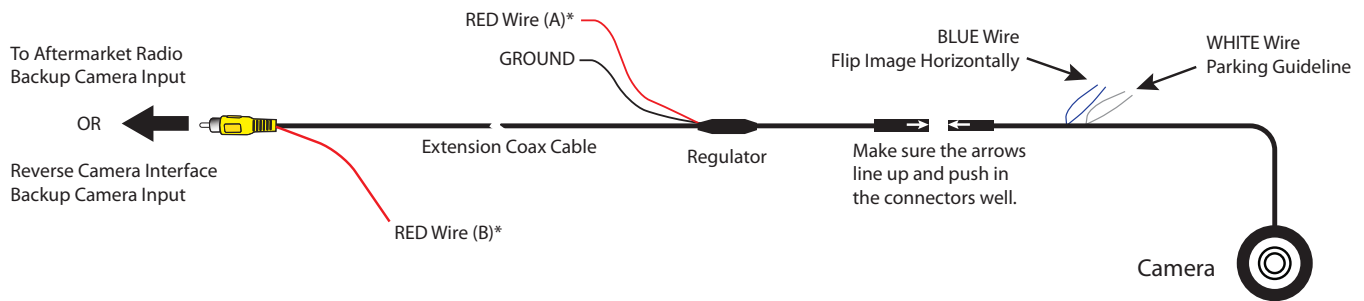

CUL-16 CAMERA

EXTENSION CABLE

INSTALLATION DIAGRAM:

***NOTE:** To power the camera, use RED Wire A or B. If tapping power from the radio or RVC Interface, make sure to insulate RED Wire A to avoid it from shorting. If you will be tapping power from the reverse light +12V, insulate RED Wire B to avoid it from shorting. With either connection the Black GROUND wire needs to be connected to a solid chassis ground. For vehicles with manual transmission, we recommend tapping +12V power from the reverse light.

WHITE Wire: Connect to show parking guide line. Disconnect to remove. Insulate with tape to avoid from shorting.

BLUE Wire: Connect to use as reverse camera. Disconnect to flip image horizontally to use as front facing camera.

Note: Cycle the camera power after connecting or disconnecting the control wires.
