

PRODUCT FEATURES:

- Automatically switches to rear-view when vehicle is in reverse gear.
- Adjustable angle rear-view camera included.
- Plug & Play Installation.

INSTALLATION DIAGRAM:

Installing the Camera

1. Remove the tailgate cover.
2. On the right side of the tailgate handle, drill a 5/8" hole using the hole saw included.
3. Route the camera power and video connections through 5/8" hole. Do not secure the camera to the handle yet until after testing the angle.
4. Connect the 4-Pin plug of the Camera Harness to the factory connector underneath the truck, near the spare tire.
5. Disconnect the negative battery terminal for a few seconds and reconnect to reset the factory system and recognize the new camera.
6. Test the camera by putting the vehicle in reverse gear.
7. Check the camera viewing angle then secure it to the handle.
8. Re-install the tailgate cover.

Factory 4-Pin connector

VEHICLE APPLICATIONS:

2014 - 2015 Toyota Tacoma
