WIRING DIAGRAM:

AUDIO INPUT TO VEHICLE:

The Smart-Play audio will use the vehicle's auxiliary input via the factory radio connector. Change the factory radio "Audio Source" to "AUX" in order for the Smart-Play audio to be heard on the factory audio system. Note that the factory aux input cannot be used while in Smart-Play mode.

To retain use of the factory bluetooth handsfree function, pair the phone to the radio. Use the steering wheel control to pickup and hang up phone calls. Use the touch screen for Smart-Play Controls.

NOTE: Answer phone calls from steering wheel control.

For Android mirroring, bluetooth must be on to have audio.

Select AUX or AV for Audio source on the factory radio.

WIRELESS CARPLAY/ WIRELESS ANDROID AUTO CONNECTION SETTINGS

Android Auto Wireless connection

Wired Connection Method:
Connect the phone cable with the original car, and then click "Allow" in the pop up window.

Step 1

Select the "Bluetooth"

Step 2

Check the Bluetooth name starting with "CAR-BT-xxx" in the Bluetooth interface

Step 3

Click on the Bluetooth name beginning with the link "CAR-BT-xxx", a pairing request will pop up, just click Pairing; after the Bluetooth pairing is successful, the phone will pop up a request to enable the carplay option, just confirm it.

Step 4

Click the Bluetooth name at the beginning of the link "CAR-BT-xxx" and click pairing. Turn on the Android auto app on the mobile phone, and the system will connect automatically.

Apple Carplay Wireless Connection

Wired Connection Method:
Connect the phone cable with the original car, and then Click "Use CarPlay" in the pop up window.

Step 1

Select "Bluetooth"

Step 2

Check the Bluetooth Device name as "CAR-BT-xxxx"

Step 3

Turn on WIFI and keep it on, then back to Bluetooth to connect CarPlay

Step 4

Select Bluetooth Device name as "CAR-BT-XXX" -Pair-Use CarPlay while that pop up a request window

NOTE: If experiencing connection issues, allow vehicle to go to sleep and disconnect the module.

SMARTPHONE MIRRORING CONNECTION

Smartphone Mirroring Connection for Iphones

Step 1

Select “Airplay”

Step 2

Turn on the phone, select the “Wireless LAN” option, the search bar will show the “CAR-WIFI-XXX” and click the link, the password is 66668888

Step 3

After the carplay wifi connection is successful, return to the main interface of phone, open the shortcut menu page, select “Screen Mirroring” and turn on

Step 4

After the mobile phone “Screen Mirroring” is turned on, select “Airplay” to complete the wireless Screen Mirroring

NOTE: Bluetooth must be OFF to connect to AirPlay on iPhone.

Smartphone Mirroring Connection for Androids

Step 1

Android phone scan and download the Auto Link by using the Browser.

Step 2

Switch the WifiAutoLink to “ON” in the Settings page.

Step 3

Open the Auto link software you downloaded, search “WiFiAutoLink-xxx” and connect, then click the “START NOW” on the phone prompt box.

Step 4

The touch reverse control and the media sound can be realized after the Auto Link connection, media sound needs to connect with Bluetooth.

Steps: Settings–Audio–AEC Delay, then click the button “Start Auto AEC”
Call Echo Cancellation: If there is an echo, please click this button for echo correction.
When correcting the echo, we must :
1. Keep quiet in the car;
2. Turn the volume to a moderate position, and then click ”start” to cancel echo.

TROUBLESHOOTING

*If your call audio does not use car's bluetooth, manually change it on the phone to select the vehicle during the call, then the phone should remember the last used setting

Changing the call audio routing setting to “BLUETOOTH HEADSET”

Go to Settings - Accessibility - Touch - Call Audio Routing. Keep it at “Automatic”

- IF the screen is black & not showing factory infotainment screen or the CarPlay/Android Auto Screen
 - Confirm secure connection of cables to the back of radio.
 - Confirm connectors are not damaged, pinched, kinked or bent.
- Switching from Smart-Phone Mirroring to CarPlay/Android Auto or general issues.
 - If device is unresponsive or glitching, turn vehicle off and allow module to sleep then try again.
