**NOTE!** Before pairing to a new iPhone/Android phone, please disconnect the currently connected phone from WiFi and Bluetooth..

## FIRMWARE UPDATE

Firmware update is NOT recommended when every function works well.

1

Format USB flash drive into FAT32File System.

2

Copy update.zip file to the root folder of USB flash drive.

3

Insert the USB flash drive into the adapter then power on. Select [Wipe data and format flash], next tap install.

4

**NOTICE:**  
The green light flashes rapidly while updating.

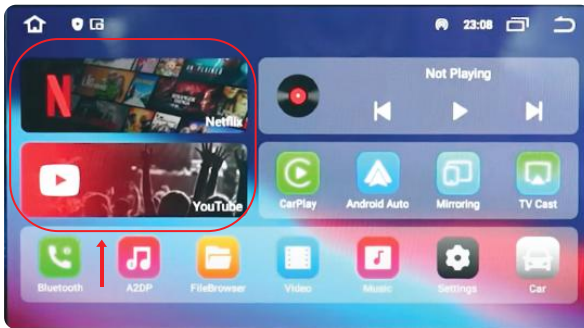

5

After the update is finished, the system will restart. Delete the update.zip file or remove the USB flash drive.
