PRODUCT FEATURES:

- Retains factory features in select GM Class II Data Bus vehicles while functioning with an aftermarket radio.
- Supports Bose, Y-91 and non-amplified audio systems.
- Retains chime functions such as: seat belt, check engine, key in ignition, low fuel, low oil and lights on.
- Retains RAP (Retained Accessory Power).
- Double DIN Dash Kit included.
- EIA color coded wiring for easy installation.

PARTS INCLUDED:

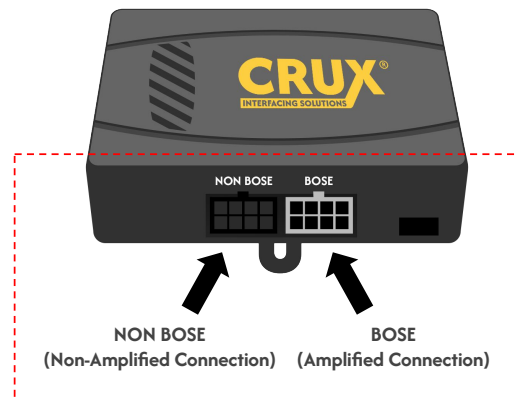

INSTALLATION DIAGRAM:

SELECTING THE AUDIO SYSTEM:

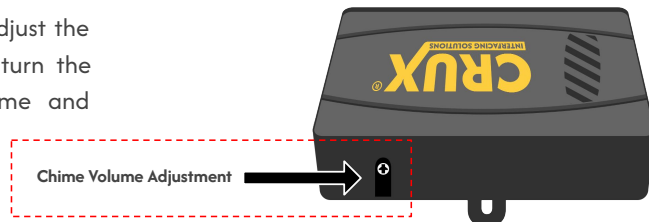

If the vehicle is equipped with an amplified audio system, the DKGM-C2D has a built-in audio level adaptor that outputs the proper audio level from the aftermarket radio to the factory amplifier. To use this feature, plug in the male 8-PIN connector on the DKGM-C2D harness to the GRAY female 8-PIN connector on the DKGM-C2D module. The module is also labeled "BOSE" and "NON BOSE" to avoid confusion. (see image for reference)

If vehicle is NOT equipped with a factory amplified system, plug-in the male 8-PIN connector the the BLACK female 8-PIN on the DKGM-C2D module.

CHIME VOLUME ADJUSTMENT:

The DKGM-C2D has a potentiometer to adjust the chime volume. It is set at the half way by default. To adjust the volume, simply use a suitable screwdriver and turn the potentiometer clockwise to increase the volume and counter-clockwise to decrease the volume.

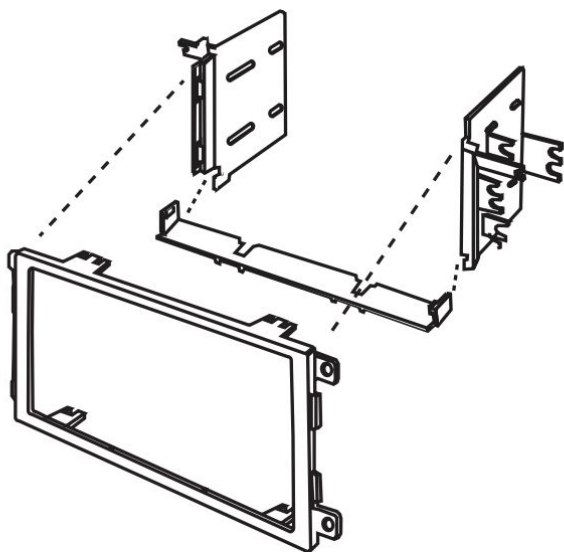

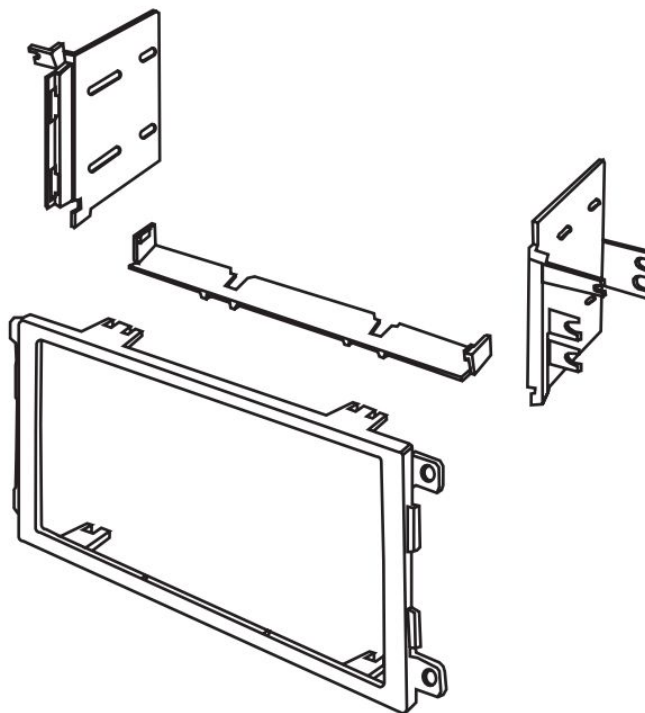

VEHICLE APPLICATIONS:

YEARS	MAKE	MODEL	YEARS	MAKE	MODEL
2004-2005	BUICK	Century	2004-2012	GMC	Canyon
2004-2007	BUICK	Rainier	2002-2009	GMC	Envoy
2003-2007	BUICK	Rendezvous	2003-2007	GMC	Savana
